

## Statement of Attribution

For my homepage of my website, I used two images from an online magazine that I write for called Moda. The two images were from the magazine. I consider this use of them to be fair because they were taken by students and were used as a part of my graphic for my piece and I was able to crop and enhance them.

For my contact me page, I used a screenshot that I took from my LinkedIn profile. This is fair use because I was able to manipulate it, crop it, and enhance it to get the desired look. A screenshot is also different from a physical photo.

I also used images from my camera roll. These were all taken completely by me so therefore this is fair use.
